Annual Report 2024-25

Education is a continuous process that extends beyond formal schooling, providing individuals with the skills, knowledge, and mindset to adapt to changing circumstances and pursue lifelong learning. It is the integration of technology into teaching and learning, including online learning, digital resources, and educational software, to enhance student engagement, access to education, and educational outcomes. In the era of Artificial Intelligence our youths seem to be panic-stricken about their future jobs as the AI would steal away their due bread and butter. So that it is the responsibility of our governments, academicians and teachers to instill confidence among them and equip them to face the challenges posed by the AI. It is the right time to frame the apposite academic curricula to suit the demands of the job market and thereby we can alleviate the apprehension of our students' fraternity. Further it is apt to remember Alfred Tennyson in writing about 'young life, its good side, its deficiencies and its yearnings' wrote: 'Knowledge comes, but wisdom lingers, and I linger on the shore, and the individual withers and the world is more and more'.

By seeking the blessings of Jagadguru Sri Sri Bharathi Theertha Mahasannidanam and Jagadguru Sri Sri Vidhushekhara Bharathi Sannidanam of Sri Sharada Peetam, Sringeri and Sri Sri Swayam prakasha Sachchidananda Saraswathi Mahaswamy of Sri Matha, Hariharapura, I am elated to present this year's Annual Report, showcasing the remarkable achievements and transformative progress at the college.

From Principal's Desk

THE RIGHT KIND of education is not concerned with any ideology, however much it may promise a future utopia: it is not based on any system, however carefully thought out, nor is it a means of conditioning the individual in some special manner. Education in the true sense is helping the individual to be mature and free, to flower greatly in love and goodness. That is what we should be interested in, and not in shaping the child according to some idealistic pattern. The highest function of education is to bring about an integrated individual who is capable of dealing with life as a whole-Sri. Krishnamurty, a well-known academician.

Corona has disrupted the traditional education system across the globe; the education of more than 350 million students in India was hampered. Though we shifted to alternative system it was not accessible to all. The pandemic has impacted on al sphere of life but it has taught us that the only area wherein reform is required is education. It has created environmental awareness, and sensitized us to health and sanitation. It is crystal clear that the online education failed to compete with the traditional education, but it laid the foundation of the modernization of education. The availability of abundant and quality e-resources on multiple subjects is all due to pandemic. It has also taught us that bookish learning is not enough for developing students'mental, psychological, emotional quotient but skill-oriented education must be adopted to instill all the life skills among the students.

I am highly pleased to place before you this annual Bhamathi, a memorable and fascinating record of events of the year 2021-22. Bhamathi, our college magazine is named after a legendary personality, the wife of Vachaspathi Mishra, a great scholar who had authored many outstanding works on Vedanta. Completely absorbed in writing the monumental scholarly commentary on the Brahmasutra Bhashya of Sri ShankaraBhagavatpadacharya, he had forgotten the existence of his wife who was taking his care throughout. As an tribute to the great selfless service rendered by her, Vachaspathy Mishra named his commentary after her. The word Bhamathi signifies the brilliance of intellect as also the visionary insight. Our college magazine is named after Bhamathi with the intention that our students be motivated to acquire such brilliant ideas and dedication by the implication of the name.

I would like to express, on behalf of the management, teaching and non teaching staff and students, my cordial wishes to Smt.Yashoda, Assistant professor and Head of the department of Sanskrit, who retired from her service on 30th September 2021. I regret to express the sad

demise of Sri.K.R. Anantha Padmanabha Bhat, our college ex-Trustee and the secretary of Bharathi Vidya Samsthe. On behalf of the management, teaching and non teaching staff and students, and I render sincere homage to him for his invaluable service to our institution. I extend, on behalf of the management, teaching and non-teaching staff and students, my deep condolence to Sri. Mirza Atheek, Lecturer Department o Commerce.

The academic year 2021-22 has been enthusiastic and vigorous during the post COVID-19 with respect to curricular and extra-curricular activities. Even in the midst of disrupted academic activities due to Corona the academic year has witnessed a few University level sports activities and our college students actively participating in all these events brought laurels to the college. The N.S.S. and N.C.C. units of the college have rendered remarkable service to students and society. The NSS units of the college have also conducted a number of extensive activities in collaboration with various organizations. In order to meet the basic requirements of the present job market 03 certificate courses have been continued this year too. Our students have been regularly trained in soft skills which resulted in the successful selection of a good number of students in the campus drive by reputed companies this year also. Endowment for best outgoing students, Gold medal Awards for the Degree and Pre university college students, Founder's Day Oration were also extended in this academic year too. This annual carries all these curricular and extra-curricular activities and students contributions. The academic achievement has also been considerable with good percentage of passes in the examinations. Students have scored excellently and brought laurels to the college.

In the light of these facts and figures I am confident that the college would further prosper on the noble path of excellence and our students will continue to do extremely well in academic and other fields with the continued committed and dedicated service of the staff, the management and the parents in the days to come.
